DETAILED ACTION***Application Status***

In response to a previous Office action, a non-final action (mailed on March 5, 2007), Applicants filed an amendment on July 31/2007, canceling claims 1-34 and adding new claims 35-51 is acknowledged.

Claims 35-51 are currently pending and now under consideration in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Elias Lambiris, the representative of the instant application on October 2, 2007.

The abstract has been rewritten on a separate sheet attached herewith as required by 37 CRF 1.72 (b).

Amend claims as follows:

Claim 1, part (a), line 3, replace "90%" with "95%".

Claim 1, part (b), line 6, after "strand of" delete "nucleotides 63 to 263, nucleotides 63 to 563 and/or".

Replace "Claim 51" with "Claim 51. A method for producing ethanol, comprising

- (a) hydrolyzing cellulose contained in biomass with (i) a polypeptide of claim 35, (ii) an endo-1,4-beta-glucanase, and (iii) a beta-D-glucosidase to form sugars;
- (b) conversion of the sugars to ethanol by fermentation; and
- (c) recovering the ethanol.

Claims 36, 43-44, 46-47 are cancelled.

Claims 35, 36-42, 45, 48-50 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claim 51 is directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 10/25/2006 is hereby withdrawn**. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 35, 37-42, 45, 48-51 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The applicant has claimed an isolated protein having an amino acid sequence shown in SEQ ID NO: 2, or an amino acid sequence having 95% or more homology to SEQ ID NO: 2 having cellobiohydrolase II activity, a detergent composition comprising said polypeptide and a process for producing ethanol by fermentation. In view of Applicants' claim amendments, all prior rejections are withdrawn. The Examiner has rejoined claim 51, drawn to a method for producing ethanol by using said allowed polypeptide. The prior art does not teach an isolated protein having an amino acid sequence shown in SEQ ID NO: 2 or an amino acid sequence having 95% or more homology to SEQ ID NO: 2, which has an cellobiohydrolase II activity. A standard search did not produce any prior art that suggests or teaches the claimed invention. The claimed invention is novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Iqbal Chowdhury, Ph.D. whose telephone number is (571) 272-8137. The examiner can normally be reached on Monday-Friday from 9:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapura Achutamurthy, can be reached at (571) 272-0928.
